werner von braun the last card

"And remember, Carol, the last card is **the alien card**. We're going to have to build space-based weapons against aliens, and all of it is a lie." **Wernher Von** ...

I happen to believe that many UFO's people are seeing are OUR OWN and that the Nazi's have their own fleet of UFO's. It also looks like PROJECT BLUE BEAM and other technologies are creating many of the UFO sightings etc.

I believe that Blue Beam will be used during the FAKED ALIEN INVASION that may be coming soon that will be orchestrated by the DEEP STATE NWO IN A FINAL ATTEMPT TO INSTALL THEIR NEW WORLD ORDER. The SCAM is being referred to by those who are exposing it as a FAKED ALIEN ATTACK and as the LAST CARD which was a symbolic reference made by scientists like Werner Von Braun.

WHAT TECHNOLOGIES WILL BE INCLUDED IN THE END TIME DELUSIONS OF MANKIND? Think of technologies that will BOGGLE YOUR MIND

- **Advanced Visual Effects:** While speculate theories mention large-scale holography for psychological operations, current holography is primarily used in entertainment, telepresence, and medical imaging.
- **Data Analytics and Surveillance:** The integration of facial recognition and predictive algorithms in public spaces is a major focus of human rights organizations, who analyze how these systems impact personal privacy and civil liberties on a global scale.
  - **Synthetic Media and AI:** Technologies like deepfakes use artificial intelligence to create hyper-realistic audio and video. Experts highlight the risk of these tools being used to spread misinformation or impersonate public figures, emphasizing the need for robust verification methods.
  - **Neurotechnology:** Advancements in brain-computer interfaces (BCIs) aim to assist individuals with neurological conditions. However, they also raise significant ethical questions regarding data privacy and the long-term implications of connecting human neural activity to external software.
  - **Digital Financial Systems:** The development of Central Bank Digital Currencies (CBDCs) is a topic of debate. While proponents cite increased efficiency, critics often raise concerns about financial privacy and the potential for increased government oversight of transactions.

ONE OF THESE TECHNOLOGIES APPEARS TO BE THE BLUE BEAM PROJECT

Canadian Journalist Serge Monast alleges that a global elite, in cooperation with NASA and the United Nations, is planning to use advanced holographic technology and mind control to stage fake supernatural events. The goal of these orchestrated illusions is to induce mass hysteria, dismantle existing religions, and establish a "New World Order" and totalitarian world government. After he published his findings, he and his associates wound up dead.

1. Falsification of Archaeological Knowledge

This initial phase involves faking localized, man-made earthquakes to unearth forged archaeological discoveries. The intent is to make the public believe that all major religious doctrines were fundamentally misunderstood, thereby discrediting existing faiths (like Christianity, Islam, and Judaism). Yahoo +1

2. The Gigantic Space Show

This phase utilizes high-tech simulations, including optical and laser projections. In this stage, individuals worldwide would simultaneously see three-dimensional holographic images of their specific religious deities (such as Jesus, Muhammad, or Buddha) or an extraterrestrial invasion. These figures would eventually merge into a single, supreme deity speaking to all of humanity.

3. Telepathic Electronic Two-Way Communication

Using Extremely Low Frequency (ELF) or Very Low Frequency (VLF) waves, the theory claims that perpetrators would beam voices directly into people's minds. This technology is designed to make individuals believe their god is speaking to them personally, prompting them to willingly accept the unified "New Age" religion and new global governance. 4. Universal Supernatural Manifestations

The final phase involves simulating both a technological and supernatural chaos. This includes simulating an alien invasion to push nations into using their nuclear weapons, and creating the illusion of a cosmic "Rapture" to eliminate dissenting populations. Afterward, the new totalitarian world government would step in to manage the aftermath and unify the planet.

There is a recurrent conspiracy theory that pokes up its tinfoil hat on the internet whenever some supposedly unidentified *something* is spotted in the sky. This idea has multiple modern manifestations, but they all center on the belief that powerful institutions – such as NASA, the "global elite", or international entities like the UN – are secretly planning to create a New World Order through advanced technology. This new order, so the theory goes, will result in the large-scale manipulation or replacement of existing religions and the erosion of national sovereignty in favor of a single, powerful world government.

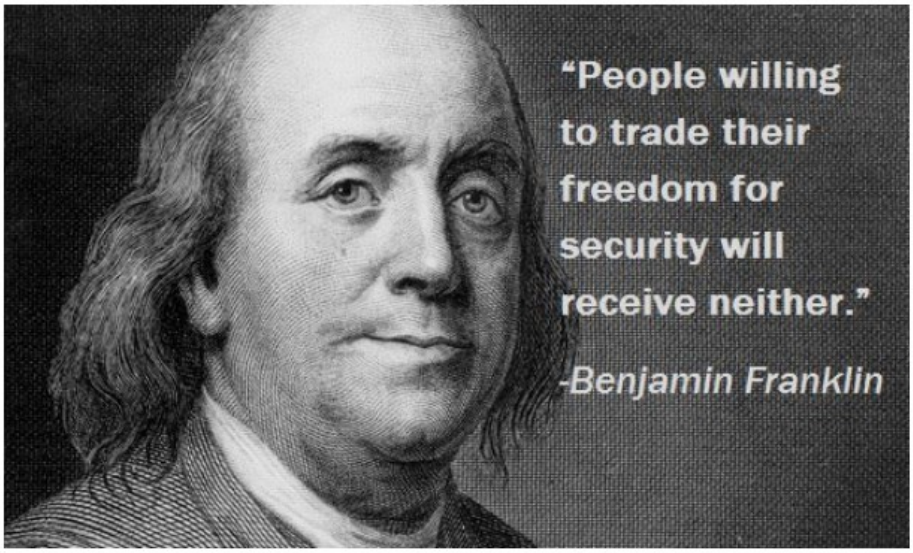
Are The Ruling Elite About To Play The Last Card?

In 1974, Dr. Carol Rosin was warned by Dr. Wernher von Braun about a series of events that will happen in the near future, all of which will be based on lies. The 'Last Card' th... **More**

Extraterrestrial Threat

"The last card" according to von Braun's testimonial to Dr. Rosin is the extraterrestrial threat. Whistleblowers and insiders have stated numerous times that many of the UFO sightings are potentially "our own" crafts as this technology has been around for many years through reverse engineering.

What is the purpose of these lies?



Ultimately, to create a one world government, currency and religion.
